### ***Parent engagement questions:***

In both the face-to-face and online engagement opportunities, parents will be invited to answer the following questions:

1. What does it mean to be "good" in math?
2. What support does your child need to be successful in learning mathematics?
3. What would help you, as a parent/guardian, support your child as they learn mathematics?
4. Given that Alberta Education determines the mathematics curriculum, what do you think is important for us to consider as we develop a CBE K-12 mathematics strategy?
