Woodman School

Dear Woodman Families:

As the cafeteria at Woodman School is closed on Fridays, we have partnered with Healthy Hunger to arrange Friday lunch delivery from various local restaurants. Healthy Hunger provides convenient ordering and electronic payment for parents.

If you would like to participate, please register your student(s) on the Healthy Hunger website and follow the instructions for ordering.

You can also check out the Woodman School website in the next few days for the link that will re-direct you accordingly. You can sign up and pay for lunches for the entire year at once, or you can do so on a weekly/monthly basis.

This Saturday, October 7th, is the deadline to order online for the first fun lunch that will be coming on Friday, October 13th and which will be provided to participating students during their nutrition break and distributed with the help of student volunteers. You can certainly still register for the program after this Saturday, but please be advised that your child will not be able to have a fun lunch on October 13th if you miss this initial deadline. Going forward, all orders must be in by the Saturday in advance to qualify for the following Friday's lunch.

Most dates for the year have been posted, but a few more will be added in the next week or so. You will receive a notification from Healthy Hunger by email when they have been added to the site.

Finally, if you have previously registered for this program, either at Woodman or in another school, please note that you must re-register students each year to ensure that information is accurate.

Please contact Diane at woodmanhealthyhunger@gmail.com if you have any issues, questions, or if you need assistance with registering or ordering.

Thank you.
