

1. *By selling magazines for the school, what prizes can I earn or win?*

Everyone who participates is awarded a prize. With this year's prize program, you can set your own goal based on the prize you would like to earn as shown on the Game On prize chart. Publishers of some Canadian magazines are also giving away novelty prizes with chances to win big. Final prize draws include 1 of 4 Ipod Touches, Wii game console, iTunes cards, music detection t-shirts and much more! Secret Spotters will be handing out little treats during lunch on 4 or 5 different days during the campaign and if you've sold subscriptions, you will also receive a Mystery Bag. Listen carefully to the announcement the day before each "spotter" day to find out what our Secret Spotters will be looking for.

2. *How do I make sure my name is entered in the final draws?*

There are 8 tickets included in your campaign package. Complete one ticket per subscription sold and hand them in with your orders on any one of our Collection Days. For on-line sales, you'll automatically be entered.

3. *My aunt lives in Quebec and is interested in ordering some magazines. Can she?*

Yes! The selection of magazines can be viewed at www.qsp.ca. If you register at this site and enter your aunt's email address, QSP will automatically send a personalized email on your behalf with a direct link to www.qsp.ca. You will then receive credit towards all eligible program offers. **Our group no. is 1681**. Send out at least 12 emails (emails that bounce back do not count) and you will be eligible to win a \$25 Futureshop gift card.

4. *I've used all my order forms, entry forms and the QSP white envelope that was included with the catalogue, but I still have more people interested. Now what?*

There are plenty of extra QSP order forms and draw tickets in the school office. Make sure you put your magazine orders and payments in an envelope each time you hand them in; we supply the first envelope only.

5. *I have a lower price coupon for a subscription. Will you accept it and how do I tell if it's a Canadian offer?*

Yes, we certainly will accept the coupon provided it is from a Canadian company for the exact same offer (same number of issues, free subscriptions and gifts are excluded). Canadian offers will show a Canadian return address and be in Canadian dollars. When comparing cost, keep in mind QSP prices include shipping and GST. In the 'total' column, write in the special coupon amount plus shipping and GST, if applicable, instead of the listed catalogue price. Attach the coupon which must show the Canadian return address. Coupons cannot be accepted for on-line orders.

6. *Last year, I ordered a magazine and ended up getting duplicates. Why?*

Duplicates for renewed subscriptions can result if the name is not identical (e.g., initials vs first name). Make sure you copy the name and address as it appears on the current magazine label.

7. *Are there more catalogues available to be able to show to more people at once?*

A limited number of extra catalogues are available in the office but remember - the catalogue is on-line at www.qsp.ca. On-line orders get processed much quicker, saves trees and cuts down on the workload to manually verify paper orders and payment.
