

What can I do with Science 30 after High School?

This information is based on a selection of post-secondary institution admission requirements for 2014/2015. It is not a comprehensive list of all of the post-secondary institutions that accept Science 30 (or in some cases Science 20).

The 'admission requirements' column has been cut and paste directly from the institution website for students applying out of high school. For classification of high school classes into Groups A, B, C, and D, see appropriate institution website. This is not an official document; please confirm requirements with the appropriate post-secondary institution.
